**WELCOME FROM THE  
EXECUTIVE DIRECTOR  
OF THE NBS BRAZIL ALLIANCE**

Dear participants of the Brazilian Climate and Carbon Conference,

It is with great pleasure that we open the 3rd edition of the Brazilian Climate and Carbon Conference, presenting a program thoughtfully designed for the moment we are living in—one in which the decarbonization of the global economy demands a multisectoral dialogue.

As we approach COP Belém, Brazil is once again at the center of global climate discussions. Our ability to build consensus and propose solutions grounded in our biodiversity, the strength of our communities, and the intelligence of our institutions will be decisive.

For this reason, the panels in this Conference were carefully crafted to reflect the dilemmas and progress that will define this decade, and to build bridges between commitment and implementation, between voluntary and regulated actions, between technical knowledge and socio-environmental justice.

From the transformative role of agriculture to innovation in forest concessions, from territorial governance to the strengthening of MRV systems, this program echoes Brazil's leadership in integrated and scalable climate solutions.

The NBS Brazil Alliance is proud to support this journey and reaffirms its mission to advance climate ambition through nature, biodiversity, and solutions based on science, equity, and collaboration. May this conference inspire us to go beyond agreements—towards concrete, monitored, and effective action.

I would like to thank our sponsors, institutional partners, supporters, and panelists, without whom this Conference would not have been possible. I also extend my gratitude to every participant who joins this journey with courage and purpose. Together, we reaffirm that facing climate challenges is a collective task—guided by collaboration, innovation, and hope for a more equitable and resilient future for all.

I wish you all a journey of exchange, learning, and collective building.

With our warmest regards,

**Julie Messias e Silva**  
Executive Director of the NBS Brazil Alliance

The NBS Brazil Alliance aims to promote an agenda to combat deforestation, encourage the restoration of degraded areas, and foster the implementation of regenerative practices through the strengthening of nature-based solutions and the carbon credit market in Brazil.

Currently, the Alliance brings together 15 members, including project development companies and third-sector organizations, who are responsible for over 70% of the carbon credits issued in Brazil since 2022, focused on NBS and AFOLU (Agriculture, Forestry and Other Land Use).

Founded in 2021, the Alliance was created in response to the demand from carbon project developers operating in Brazil for a technical authority to promote integrity, market best practices, and a positive agenda for the sector.

WE ISSUE OVER 70% OF  
NBS / AFOLU CARBON  
CREDITS IN BRAZIL

+70%

THE ALLIANCE WORKS ACROSS THREE MAIN STRATEGIC AREAS:

**BEST PRACTICES AND INTEGRITY**

Focused on ensuring the quality and transparency of Brazilian projects, aligning them with the highest international standards.

**ADVOCACY AND PUBLIC POLICY**

Technical and strategic collaboration with federal and state governments to develop carbon markets and strengthen nature-based solutions.

**AWARENESS, ENGAGEMENT,  
AND COMMUNICATION**

Dissemination of relevant information through articles, media interviews, participation in events, and the organization of webinars, courses, and conferences.

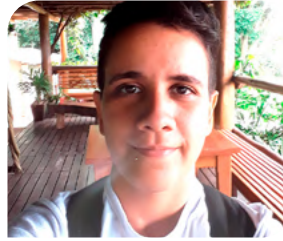

EXECUTIVE COORDINATION

**Julie Messias**  
Executive Director

**Carla Zorzanelli**  
General Manager

**Ana Maria Oliveira**  
Project Analyst

**July Joyce Specht**  
Event Producer

BOARD OF DIRECTORS

**Janaina Dallan**  
Founder and Co-CEO  
of Carbonext

**Marta Giannichi**  
Global Sustainability Director  
at Minerva Foods

**Marcos Preto**  
CEO of Agrocortex  
Madeiras do Acre

**Marco Tuoto**  
CEO  
of brCarbon

**Monique Vanni**  
Country Director Wildlife  
Works

**Plínio Ribeiro**  
Board Member at Ambipar  
and Co-founder of Biofilica

**Tiago Ricci**  
Director  
at Systemica

MEMBERS OF THE ALLIANCE

The Alliance has 15 member organizations, including carbon project developers, third-sector organizations, and impact investors. Together, these members are responsible for approximately 70% of the carbon credits issued in Brazil since 2022, focused on NBS and AFOLU (Agriculture, Forestry and Other Land Use).

TIME	SESSION
09:00 - 09:45	Registration and Welcome Coffee
09:45 - 10:15	<b>INSTITUTIONAL OPENING</b>
10:20 - 11:20	<b>Panel 1: On the way to COP30: Brazil's leadership in building climate consensus</b>
11:25 - 12:25	<b>Panel 2: From commitment to implementation: sectoral pathways of Brazil's NDC</b>
	<b>Panel 3: Deforestation reduction and climate action: commitments and results</b>
12:30 - 14:00	<b>LUNCH</b>
14:05 - 15:05	<b>Panel 4: From voluntary to regulated: building bridges for nesting carbon projects in Brazil</b>
	<b>Panel 5: Innovation in forest concessions: restoration and carbon credits based on ARR</b>
15:10 - 16:10	<b>Panel 6: Territorial climate governance: rights guarantees and socio-environmental safeguards</b>
	<b>Panel 7: Integrity in the carbon market: carbon credit commercialization solution (organized by Elo)</b>
16:15 - 16:55	<b>BREAK/NETWORK - PHOTO EXHIBITION: LIVING TERRITORIES, REAL SOLUTIONS</b>
17:00 - 18:00	<b>Panel 8: How can agriculture lead solutions to climate challenges?</b>
	<b>Panel 9: MRV as a pillar of integrity: the technical basis for trust in climate credits</b>
18:00 - 19:15	<b>CLOSING</b>

TIME	SESSION
09:00 - 09:45	Registration and Welcome Coffee
10:00 - 11:00	<b>Panel 10: COP30 in Brazil:</b> what is at stake for states, private sector, and civil society?
	<b>Panel 11: CDR opportunities in Brazil:</b> tech-based & nature-based solutions <i>(organized by Banco do Brasil)</i>
11:05 - 12:05	<b>Panel 12: Biomass Monitoring From Space - A Breakthrough to Scale Forest Carbon Finance?</b> <i>(organized by Chloris Geospatial)</i>
	<b>Panel 13: Regulatory environment and legal security for environmental innovation: the role of institutions in consolidating the SBCE</b>
12:10 - 13:40	<b>LUNCH</b>
13:45 - 14:45	<b>Panel 14: Governance of the regulated carbon market based on federative and sectoral dialogue</b>
14:50 - 15:50	<b>Panel 15: Origin guarantee: is it possible to value the environmental attribute of biomethane?</b> <i>(organized by SEMIL)</i>
	<b>Panel 16: New carbon frontiers</b> <i>(organized by Carbonext)</i>
15:55 - 16:55	<b>Panel 17: Financial instruments, territorial transformation, and the SBCE</b>
	<b>Panel 18: From commitment to action: corporate strategies to avoid, reduce and offset emissions</b> <i>(organized by Ambipar)</i>
17:00 - 18:00	<b>Panel 19: The bioeconomy as an instrument for conservation and socioeconomic strengthening of territories in the climate transition</b>
	<b>Panel 20: Verified integrity:</b> how do certifiers see the future of the market?
18:00 - 19:30	<b>CLOSING / NETWORKING WITH APPETIZERS</b>

**DAY 1**

09:00 - 09:45

REGISTRATION AND WELCOME COFFEE

09:45 - 10:15

INSTITUTIONAL OPENING

→ **Julie Messias**, Executive Director, NBS Brazil Alliance

10:20 - 11:20

**PANEL 1: ON THE ROAD TO COP30:  
BRAZIL'S LEADERSHIP IN BUILDING CLIMATE CONSENSUS**

The realization of COP30 in the Amazon marks a milestone for Brazilian climate diplomacy and strengthens the country's leadership in multilateral spaces. This panel offers a reflection on the expectations for the Conference, highlighting Brazil's role in building consensus, promoting territory-based solutions, and articulating a global climate agenda that integrates ambition, justice, and implementation. The Amazon, as the host of COP30, symbolizes the urgency and potential of a transition led by biomes to the world.

**MODERATOR**

→ **Janaina Dallan**  
Board Member,  
NBS Brazil Alliance

**SPEAKERS**

→ **Sérgio Xavier**  
Coordinator of the Brazilian  
Forum on Climate Change

→ **Paloma Pinheiro**  
Climate Change Coordinator  
UN Global Compact

→ **Juliana Coelho Marcussi**  
Climate Policy and Carbon  
Markets Manager - La Clima

11:25 - 12:25

**PANEL 2: FROM COMMITMENT TO IMPLEMENTATION:  
SECTORAL PATHWAYS OF BRAZIL'S NDC**

The realization of Brazil's NDC depends on the coordinated mobilization of various sectors such as energy, agriculture, industry, land use, and forests. This panel discusses ways to transform targets into actions, highlighting the strategic role of each sector in reducing emissions, promoting innovation, and advancing a fair and effective climate transition aligned with Brazil's commitments under the Paris Agreement.

**MODERATOR**

→ **Pedro Venzon**  
Policy Manager  
IETA

**SPEAKERS**

→ **Renan Marçal** - Senior  
Sustainability Analyst - Climate  
Change, Vale

→ **Thiago Belote**  
Director of the Forest  
Department, (MMA)

→ **Amanda Almeida Frizzo**  
Carbon Specialist, Instituto  
Amazônia +21

→ **Marco Tulio Cabral**  
Head of the Forests Unit for COP30, Ministry of  
Foreign Affairs

11:25 - 12:25

**PANEL 3: DEFORESTATION REDUCTION AND  
CLIMATE ACTION: COMMITMENTS AND RESULTS**

Deforestation remains one of the main sources of emissions in Brazil, but recent progress shows that the combination of public policies, private sector engagement, coordinated state action, and technological innovation can deliver consistent results. This panel examines the persistent structural challenges and presents emerging solutions based on territorial governance, monitoring, environmental regularization, economic incentives, and the valuation of environmental assets.

**MODERATOR**

→ **Bruno Brazil**  
COO,  
brCarbon

**SPEAKERS**

→ **Iara Musse**  
CEO,  
SCCON Geospatial

→ **Cristiano Cunha** - Head of SEGEA  
at the Federal Police, Coordinator  
of the Brazil MAIS Program

→ **Mauren Lazzaretti** - Secretary  
for the Environment of Mato  
Grosso, President of Abema

12:30 - 14:00

LUNCH BREAK

**DAY 1**

14:05 - 15:05

**PANEL 4: FROM VOLUNTARY TO REGULATED:  
BUILDING BRIDGES FOR NESTING CARBON PROJECTS IN BRAZIL**

As Brazil advances in regulating its carbon market, it becomes increasingly strategic to discuss the challenges of nesting jurisdictional programs with private carbon projects. The focus is on ensuring environmental integrity, traceability, and avoiding double counting. This panel will explore how to align public and private efforts, and harmonize rules so local projects can effectively contribute to jurisdictional and national emissions reduction goals.

**MODERATOR**

→ **Julie Messias**  
Executive Director,  
NBS Brazil Alliance

**SPEAKERS**

→ **Lourdes Machado**  
Executive Manager,  
ACX

→ **Roberta Cantinho** - Director of  
Policies for Deforestation and  
Fire Control, Ministry of the  
Environment (MMA)

→ **Fagner Henrique Maia Feitosa**  
President, Environmental Assets  
Company of Pará (Companhia de  
Ativos Ambientais do PA)

→ **Marcello Lelis**  
Secretary of Environment,  
State of Tocantins

14:05 - 15:05

**PANEL 5: INNOVATION IN FOREST CONCESSIONS:  
RESTORATION AND CARBON CREDITS BASED ON ARR**

The evolution of forest concessions has opened new opportunities for ecosystem restoration and carbon credit generation. This requires innovative legal instruments and management models. This panel will discuss alternatives focused on ARR (Afforestation, Reforestation, and Revegetation), addressing legal frameworks, economic feasibility, governance, and the strategic role of public forests in the climate agenda and sustainable land management.

**MODERATOR**

→ **Leonardo Martin Sobral**  
Director of Forests and  
Restoration, IMAFLORA

**SPEAKERS**

→ **Renato Rosemberg** - Director  
of Concessions - Brazilian  
Forest Service (SFB)

→ **Tatiana Cymbalista**  
Manesco Advogados

→ **Daniel Jimenez**  
CEO and Co-Founder - Silva  
Sementes e Mudanças Nativas

→ **Rodrigo Levkovicz**  
Executive Director, Fundação  
Florestal de São Paulo

15:10 - 16:10

**PANEL 6: TERRITORIAL CLIMATE GOVERNANCE:  
RIGHTS GUARANTEES AND SOCIO-ENVIRONMENTAL SAFEGUARDS**

Effective climate policies and projects at the territorial level require governance structures that ensure transparency, participation, and respect for rights. This panel will discuss the role of socio-environmental safeguards as essential tools to secure integrity, equity, and shared responsibility in the implementation of climate initiatives, with a special focus on traditional territories and the most vulnerable biomes.

**MODERATOR**

→ **Gabriela Sampaio**  
Public Policy Program  
Manager, FAS

**SPEAKERS**

→ **Mariane Nardi** - General Coordinator of  
Economic Instruments for Deforestation  
Control, MMA

→ **Valber Tembê** - President,  
Zane Zeno'og haw Federation  
(Tembê Tenetehar People)

→ **Denise Borges** - President, Residents' Association of  
the Rio Preto Jacundá Extractive Reserve  
(Asmorex)

→ **Maurício Terena**  
Lawyer, APIB (Articulation of  
Indigenous Peoples of Brazil)

15:10 - 16:10

**PANEL 7: INTEGRITY IN THE CARBON MARKET:  
A CARBON CREDIT COMMERCIALIZATION SOLUTION (Organized by Elo)**

This panel will present Elo's solution as a complementary mechanism to increase integrity and efficiency in the commercialization of high-quality carbon credits. In a shifting regulatory environment and a potential rise in demand for trustworthy climate assets, Elo offers a tech-based solution that promotes transparency, traceability, and security in carbon credit transactions—connecting high-integrity projects with buyers in voluntary and regulated markets. The discussion will address current market challenges and how innovation can help scale and strengthen Brazil's carbon market.

**SPEAKERS**

→ **Andreia El Haber Limão**  
Sustainability  
Superintendent, Elo

→ **Leandro Marcelo Lucas**  
Director of Product Engineering  
and Consulting, Elo

**DAY 1**

16:15 – 16:55

**BREAK/NETWORK - PHOTO EXHIBITION:**  
LIVING TERRITORIES, REAL SOLUTIONS

17:00 – 18:00

**PANEL 8: HOW CAN AGRICULTURE LEAD SOLUTIONS  
TO CLIMATE CHALLENGES?**

Agriculture can play a central role in responding to the climate crisis, offering solutions that combine production, resilience, and carbon removal. This panel discusses the sector's potential to lead mitigation and adaptation strategies through sustainable land management (ALM), use of biochar, soil conservation, and nature-based technologies. It will also explore opportunities for agriculture to participate in carbon markets with integrity and value generation for producers.

**MODERATOR**

→ **Marta Giannichi**  
Board Member, NBS Brazil  
Alliance

**SPEAKERS**

→ **Richard Smith**  
CEO, PCI

→ **Erick Sanford**  
Technical Analyst,  
Banco do Brasil

→ **Tiago Agne** - Corporate  
Sustainability Manager, SLC  
Agrícola

→ **Eduardo Bastos**  
Director, Agribusiness Studies  
Institute (IEAg), ABAG

17:00 – 18:00

**PANEL 9: MRV AS A PILLAR OF INTEGRITY:  
THE TECHNICAL BASIS FOR TRUST IN CLIMATE CREDITS**

Robust Measurement, Reporting and Verification (MRV) systems are essential to ensure the integrity and credibility of environmental assets. This panel explores the technological and institutional advancements needed to consolidate a reliable technical foundation that ensures transparency, traceability, and trust in carbon markets.

**MODERATOR**

→ **Caio Gallego**  
Leader, Methodologies Working  
Group, NBS Brazil Alliance

**SPEAKERS**

→ **Florian Reber** - Senior VP  
Business Development and  
Partnerships, Chloris Geospatial

→ **Adriano Junqueira**  
Account Executive,  
Planet

→ **Dra. Graciela Tejada**  
MRV Specialist,  
Geonoma

→ **Andreia El Haber**  
Head of ESG,  
Elo

18:00 – 19:15

**CLOSING**

DAY 2

09:00 - 09:45

REGISTRATION AND WELCOME COFFEE

10:00 - 11:00

**PANEL 10: COP30 IN BRAZIL:**  
WHAT'S AT STAKE FOR STATES, THE PRIVATE SECTOR, AND CIVIL SOCIETY?

COP30 in Brazil will be a decisive moment for states, the private sector, and civil society. This panel explores what is at stake for each actor—from strengthening state governance and mobilizing private investment to empowering local communities and civil society organizations. It will highlight how these groups can collaborate to build an agenda that combines climate ambition, sustainable development, and socio-environmental justice, leveraging the historical opportunity of hosting the Conference.

MODERATOR

→ **Carla Zorzaneli**  
General Manager,  
NBS Brazil Alliance

SPEAKERS

→ **Mauren Lazzaretti**  
Secretary of Environment, State of Mato Grosso; President  
of Abema

→ **João Teixeira**  
Climate Action Manager,  
Natura

→ **Elbia Gannoum**  
Enviada Especial Setorial da  
COP30 - Energia

→ **Leonardo Nitta**  
Energy and Carbon Manager,  
Banco do Brasil

10:00 - 11:00

**PANEL 11: CDR OPPORTUNITIES IN BRAZIL:**  
TECH-BASED & NATURE-BASED SOLUTIONS *(Organized by Banco do Brasil)*

Brazil has significant potential to lead carbon dioxide removal (CDR) efforts through innovation, climate finance, and strategic partnerships. This panel will present an overview of initiatives such as BECCS (Bioenergy with Carbon Capture and Storage), ARR (Afforestation, Reforestation, and Revegetation), ERW (Enhanced Rock Weathering), and the use of biochar in agriculture to fix carbon in the soil for long periods. Experts and practitioners will show how to make these projects viable, advancing the climate transition with social, environmental, and economic benefits.

MODERATOR

→ **Erick Sanford Augusto**  
Technical Analyst,  
Banco do Brasil

SPEAKERS

→ **Felipe Viana**  
Commercial Director,  
Carbonext

→ **Mariane Guerra Martins**  
Tech-Based Project Manager,  
Future Climate Group

→ **Gabriel Piza**  
NBS Project Manager,  
Future Climate Group

→ **Niklas Paul Kluger**  
Co-Founder & Chief Operations  
Officer, Inplanet

→ **Neil Hacker**  
Head of Partnerships,  
Isometric Standard

11:05 - 12:05

**PANEL 12: BIOMASS MONITORING FROM SPACE - A BREAKTHROUGH  
TO SCALE FOREST CARBON FINANCE?** *(Organized by Chloris Geospatial)*

This panel will bring together leaders from government, science, and the private sector to present new opportunities to scale nature-based solutions at both project and jurisdictional levels—enabled by cutting-edge biomass monitoring from space. Supported by data and insights from Chloris Geospatial, speakers will discuss how this technology can enhance climate finance mechanisms—both market-based and public—for large-scale forest conservation and restoration.

MODERATOR

→ **Dan Nepstad**  
Founder and President, Earth  
Innovation Forum

SPEAKERS

→ **Carlos Nobre** - Full Professor,  
Institute for Advanced Studies,  
University of São Paulo

→ **Luiz Aragão**  
Researcher, INPE

→ **Florian Reber** - Senior VP  
Business Development and  
Partnerships, Chloris Geospatial

→ **Thibault Sorret**  
CEO,  
Equitable Earth

→ **Clara Gazzinelli Cruz**  
Executive Sustainability  
Manager, Suzano

**DAY 2**

**11:05 – 12:05**

**PANEL 13: REGULATORY ENVIRONMENT AND LEGAL CERTAINTY FOR ENVIRONMENTAL INNOVATION: THE ROLE OF INSTITUTIONS IN CONSOLIDATING THE SBCE**

The transition to a low-carbon economy requires a solid and predictable legal environment that encourages environmental innovation. This panel brings together members of the judiciary and legal sector to discuss the progress and challenges of Brazil's legal framework, with emphasis on the Brazilian Emissions Trading System (SBCE). Strategies to strengthen legal certainty, ensure environmental integrity, and promote effective instruments to face the climate emergency will be addressed.

**MODERATOR**

→ **Luiz Gustavo Bezerra**  
Partner, Tauil & Chequer  
Advogados

**SPEAKERS**

→ **Tatiana Carbone**  
Chair, Special Committee on Climate Change, Natural Capital, and Carbon Credits, OAB/ACRE

→ **Carlos Aragon** - Executive  
Director, Governors' Climate and  
Forests Task Force (GCF TF)

→ **Rosa Ramos**  
Chair, Climate Special  
Committee, OAB/SP

**12:10 – 13:40**

**LUNCH BREAK**

**13:45 – 14:45**

**PANEL 14: GOVERNANCE OF THE REGULATED CARBON MARKET BASED ON FEDERATIVE AND SECTORAL DIALOGUE**

The creation of Brazil's Emissions Trading System (SBCE) requires effective, transparent, and participatory public governance. This panel promotes dialogue among sectors directly affected by regulation—such as energy, industry, agriculture, and transportation—and those responsible for shaping and implementing the system. The discussion will cover regulatory conditions in progress, key concerns from different economic segments, and the mechanisms needed to ensure legal security, federative coherence, and environmental integrity.

**MODERATOR**

→ **Julie Messias**  
Executive Director,  
NBS Brazil Alliance

**SPEAKERS**

→ **Aloisio Melo** - National Secretary for Climate  
Change, Ministry of Environment and Climate  
Change (MMA)

→ **Plínio Ribeiro**  
Advisor, Ambipar

→ **Cristina Reis**  
Deputy Secretary for Sustainable Economic  
Development, Ministry of Finance (MF)

**14:50 – 15:50**

**PANEL 15: GUARANTEE OF ORIGIN: IS IT POSSIBLE TO VALUE THE ENVIRONMENTAL ATTRIBUTE OF BIOMETHANE? (Organized by SEMIL)**

The biomethane potential from agricultural, urban, and industrial waste is a key asset for São Paulo's energy transition. To make this potential a reality, it is essential to recognize the value of the gas's renewable origin and the emissions reduction it provides. This panel will discuss the central role of certification, regulation, and emission reporting standards in ensuring proper accounting and pricing of biomethane's environmental attribute.

**MODERATOR**

→ **Danilo Perecin** - Director of  
Energy, Subsecretariat for  
Energy and Mining, SEMIL-SP

**SPEAKERS**

→ **Adriana Jacintho Berti Costa** - Head of  
Product and New Business Development in  
Decarbonization, BLOCKC & Grupo Ecopart

→ **Liv Nakashima Costa**  
Director of Corporate Management and Sustainability,  
Environmental Company of the State of São Paulo - CETESB

→ **Nicolle A. Monteiro de Castro** - Senior  
Commercial Specialist, Agribusiness - LATAM,  
S&P Global Commodity Insights

DAY 2

14:50 – 15:50

**PANEL 16: NEW FRONTIERS OF CARBON** *(Organized by Carbonext)*

The market for nature-based solutions is undergoing profound transformation. Initiatives such as regenerative agriculture and reforestation are advancing strongly, while conservation projects adjust to face challenges of credibility, financing, and scale. In this new scenario, a crucial question arises: how to adapt business models to align environmental integrity with economic viability? This panel brings together influential voices among developers and major carbon credit buyers to discuss possible paths and new opportunities in a market seeking maturity, scale, and real climate impact.

MODERATOR

→ **Lourival Sant'anna**  
Head of Communications,  
Carbonext

SPEAKERS

→ **Luciano Fonseca**  
Founder and Co-CEO,  
Carbonext

→ **Alexandre Leite**  
CEO and Co-founder, NaturAll

→ **Leonardo Azevedo Maués**  
Carbon Market Manager,  
Petrobras

→ **Leonardo Nitta**  
Carbon and Energy Solutions  
Manager, Banco do Brasil

15:55 – 16:55

**PANEL 17: FINANCIAL INSTRUMENTS,  
TERRITORY TRANSFORMATION AND THE SBCE**

The transition to a low-carbon economy requires not only technological innovation and robust regulatory frameworks but also mobilization of financial resources at scale and speed. Nature-based solutions increasingly demand investments and leverage instruments to transform territories. This panel brings together representatives from the public and private sectors to discuss the importance of financial instruments in building a sustainable development path in Brazil, especially now with the implementation of the SBCE. Different perspectives will be shared on strategies to connect climate targets to impact investments, expand credit access, and promote a new approach to risk, return, and responsibility.

MODERATOR

→ **Tiago Ricci**  
Partner and Director,  
Systemica

SPEAKERS

→ **Aloisio Melo** - National Secretary for Climate  
Change, Ministry of Environment and Climate  
Change (MMA)

→ **Luiz Alberto Esteves**  
Director of Analysis and  
Operational Management, CAF

→ **Nabil Kadri**  
Deputy General Director for  
Environment, BNDES

→ **Natalia Renteria**  
Brazil Director,  
Silvania

→ **Bruno Laskowsky**  
Partner,  
YvY Capital

15:55 – 16:55

**PANEL 18: FROM COMMITMENT TO ACTION: CORPORATE STRATEGIES TO AVOID,  
REDUCE AND COMPENSATE EMISSIONS** *(Organized by Ambipar)*

This panel will highlight practical actions Brazilian companies have adopted following the ERC hierarchy (Avoid, Reduce, and Compensate), addressing challenges and opportunities from technical, regulatory, and financial perspectives, as well as case studies illustrating good practices and innovation.

MODERATOR

→ **Gabriel Trivelino**  
Institutional Relations  
Specialist, Ambipar

SPEAKERS

→ **Francisco Razollini** - Executive Director  
of Industrial Technology, Innovation and  
Sustainability, Klabin

→ **Fernanda Sossai**  
Sustainability Director,  
Ambipar

→ **Claudia Schaeffer**  
Global Director of Energy and  
Climate, Dow

→ **Sidnei Aranha** - Superintendent of  
Environment, Health and Safety, Santos  
Port Authority

17:00 – 18:00

**PANEL 19: THE BIOECONOMY AS A TOOL FOR CONSERVATION AND SOCIOECONOMIC  
STRENGTHENING OF TERRITORIES IN THE CLIMATE TRANSITION**

This panel discusses the central role of living territories – forests and livelihoods – in building global climate solutions. The discussion will focus on income generation and cultural valorization, emphasizing the autonomy of local and traditional communities in designing, managing, and implementing these initiatives, putting territories at the heart of the low-carbon economy transition.

MODERATOR

→ **Dr. Monique Vanni**  
Country Director, WWC

SPEAKERS

→ **Tashka Peshaho Yawanawá** - President, Yawanawá Sociocultural  
Association (Yawanawá People)

Parakanã People of TI  
Apyterewa

→ **Daiane Tenharim**  
Coordinator, Tenharim  
Morôgwitá People Association

→ **Marcos Preto**  
CEO, Agrocortex

DAY 2

17:00 - 18:00

**PANEL 20: VERIFIED INTEGRITY:  
HOW CERTIFIERS SEE THE FUTURE OF THE MARKET?**

Trust in carbon credits depends directly on the credibility of certification standards and verification processes. This panel brings together certifiers and experts to discuss ways to ensure environmental integrity, traceability, and transparency in the market amid new global demands. The discussion will cover perspectives on the future of standards, quality criteria, and challenges to guarantee technical consistency and alignment with demands for credibility and real impact.

[carbonext.com.br](https://carbonext.com.br)

**Giuliana Godoy**

[giuliana.godoy@carbonext.com.br](mailto:giuliana.godoy@carbonext.com.br)

#### CARBONEXT

Carbonext leads nature-based solutions that transform the fight against climate change into environmental, social, and economic value. The company works with REDD+, ARR, and ALM projects, generating high-integrity carbon credits. It also develops emissions inventories and structures carbon trading operations. Headquartered in São Paulo with an office in Belém, Carbonext is a partner of NaturAll Carbon, focused on regenerative agriculture.

[elisa@chloris.earth](mailto:elisa@chloris.earth)

#### CHLORIS GEOSPATIAL

Chloris Geospatial is a leading provider of scientific insights on forest carbon, combining artificial intelligence, machine learning, and satellite technology to deliver high-integrity carbon data at scale. Chloris empowers companies, governments, and project developers to make informed decisions based on consistent, verifiable, and cost-effective data, maximizing on-the-ground impact.

[mkt.decarbon@ambipar.com](mailto:mkt.decarbon@ambipar.com)

#### AMBIPAR

Ambipar provides end-to-end solutions for the decarbonization of large companies. We begin with greenhouse gas (GHG) emission inventories, identifying and quantifying sources. We then develop reduction and mitigation strategies with solutions that optimize processes and promote environmental efficiency. We structure carbon offsetting using high-integrity carbon credits (NbS). We also offer technical and strategic support for CDP and SBTi. Ambipar is a global leader in environmental solutions.

#### ELO

Elo was born to be the connection between Brazilians and a simpler, faster, and more secure financial future. We are one of the country's leading technology companies, and our mission is to democratize access to electronic payment methods, promoting seamless experiences that meet the real needs of the population. Founded in 2011 through a strategic partnership between Banco do Brasil, Bradesco, and Caixa Econômica Federal, we are now at the center of an ecosystem connecting over 34 million active cards bearing our brand, 38 issuers, 319 acquirers, and more than 8.3 million merchants. We continually expand our portfolio, which today includes credit, debit, and prepaid cards, as well as payment and service solutions—all with a focus on flexibility and meeting the specific needs of each customer. Combining innovation, inclusion, and a commitment to sustainability, we drive the financial solutions ecosystem, promoting a future full of opportunity and achievement for all. In 2024, we launched Nosso Elo, a movement aligned with values that truly matter to Brazilians. This initiative aims to create deeper connections with the public by aligning the company's solutions with society's real values and needs. By occupying meaningful brand territories, the movement reinforces that Elo is not just a financial services provider—but also a partner that supports causes with a positive impact on people's lives.

### BANCO DO BRASIL

[bb.com.br/sustentabilidade](http://bb.com.br/sustentabilidade)

Banco do Brasil operates strategically to promote sustainable development, integrating environmental, social, and governance (ESG) criteria into its business practices. Recognized as the world's most sustainable bank by the Dow Jones Sustainability Index, it supports the transition to a low-carbon economy by financing projects that combine profitability with positive environmental and social impact.

## PLATINUM

### BrCARBON

[brcarbon.com.br](http://brcarbon.com.br)

Marco Tuoto

[diretoria@brcarbon.com.br](mailto:diretoria@brcarbon.com.br)

Founded in 2020, brCarbon is a Brazilian company with international recognition, dedicated to developing high-integrity nature-based (NbS) carbon projects. We work with innovative strategies and technologies to enable and monetize forest conservation (REDD+) and ecological restoration (ARR) actions. Currently, we have four REDD+ projects, including one undergoing its fourth verification process (Brazilian Amazon APD Grouped - ID 2551), and two verified ARR projects (ID 738 and ID 1317), both developed in partnership with non-governmental organizations.

### SYLVERA

[sylvera.com](http://sylvera.com)

Lucia Canto-Mira

[marketing@sylvera.io](mailto:marketing@sylvera.io)

Sylvera is the independent carbon data platform trusted by corporate buyers, investors, and project developers to navigate the carbon market with confidence. By combining proprietary satellite monitoring, machine learning, and deep climate expertise, we deliver comprehensive ratings and market intelligence that drive real climate action and connect participants directly to verified carbon supply. Our team brings unmatched expertise in cutting-edge and nature-based solutions, including durable CDR. Founded in 2020 and backed by leading investors such as Balderton Capital, Index Ventures, Insight Partners, LocalGlobe, and Salesforce Ventures, Sylvera operates globally and is the first carbon ratings platform with ISO certification.

## GOLD

### GEONOMA

[geonoma.eco](http://geonoma.eco)

Bruno Almozara Aranha

[contato@geonoma.eco](mailto:contato@geonoma.eco)

Geonoma is an environmental services company operating across nearly all areas of nature-based solutions, offering services from forest inventories and decarbonization strategies to ecological restoration and carbon credit generation. It stands out in the development of large-scale Jurisdictional REDD+ and ARR projects, all with high integrity and strong biodiversity integration.

## GOLD

### SYSTEMICA

[systemica.digital](https://systemica.digital)

[contato@systemica.digital](mailto:contato@systemica.digital)

At Systemica, investment is a tool for transformation. We partner with traditional communities, Indigenous peoples, private landowners, and governments to drive conservation and sustainable development. We enable projects that promote autonomy, restore ecosystems, and transform territories with responsibility and integrity—placing relationships, results, and people at the center.

### WILDLIFE WORKS

[wildlifeworks.com/pt](https://wildlifeworks.com/pt)

Diego Poli

[diego.poli@wildlifeworks.com](mailto:diego.poli@wildlifeworks.com)

Wildlife Works is a pioneer in the development of nature-based solutions, with global technical leadership and a track record of working in partnership with local communities and Indigenous peoples. For over 25 years, it has implemented projects that combine conservation, income generation, and community leadership.

### ACX

[acx.net/acx-brasil](https://acx.net/acx-brasil)

Victor Hugo

[info\\_br@acx.net](mailto:info_br@acx.net)

ACX Brasil connects carbon projects in Brazil to global markets through advanced digital technology, regulatory compliance, and a commitment to environmental integrity. In partnership with B3, it promotes liquidity and competitiveness for Brazilian carbon credits and other environmental assets through secure and efficient trading.

### SCCON

[scccon.com.br](https://scccon.com.br)

Iara Musse Felix

[marketing@scccon.com.br](mailto:marketing@scccon.com.br)

SCCON is a Brazilian geospatial company that has been innovating since 2008. It provides analytical and scalable solutions using high-resolution satellite imagery and advanced analytics to monitor and measure changes across Brazilian biomes. With comprehensive Earth geospatial modeling and a robust data repository, SCCON delivers dynamic alerts and automated analyses for sectors such as the environment, agriculture, forestry, public security, carbon areas, supply chains, and ESG. SCCON has been Planet's official distributor in Brazil since 2016.

### AGROCORTEx

[agrocortex.com](https://agrocortex.com)

Marcos Preto

[redd@agrocortex.com](mailto:red@agrocortex.com)

Agrocortex operates an integrated model of certified forest management and conservation through REDD+, based on robust methodologies (VCS, SOCIALCARBON) and practices aligned with FSC® standards in both forest management and the entire supply chain. Its flagship initiative, the Agrocortex REDD Project, preserves 186,000 hectares of native Amazon rainforest, reducing emissions and generating measurable co-benefits for local communities, biodiversity, and the climate—with direct positive impacts across all micro and macro regions within its area of influence.

### OPIS

[opisnet.com](http://opisnet.com)

**Bridget Hunsucker**

[bhunsucker@opisnet.com](mailto:bhunsucker@opisnet.com)

The Oil Price Information Service (OPIS) brings pricing transparency to the global energy and fuel supply chain, enabling all stakeholders to buy and sell petroleum and energy products with confidence. We do this by providing transparent pricing, real-time news, in-depth analysis, powerful software tools, and educational and networking events. We also offer a wide range of free resources and maintain an active blog. Our commitment to reliability is supported by world-class, personalized customer service and continuous innovation. OPIS listens to the needs of clients and industry stakeholders, responding with flexible, user-friendly products and solutions. The OPIS methodology complies with all international price reporting standards established by IOSCO—the International Organization of Securities Commissions.

### MY CARBON

[mycarbon.solutions](http://mycarbon.solutions)

**Guilherme Moraes Ferraudo**

[guilherme.ferraudo@minervafoods.com](mailto:guilherme.ferraudo@minervafoods.com)

MyCarbon is a subsidiary of Minerva Foods, the leading exporter of beef in South America. The company aims to generate carbon credits and connect them to businesses seeking to offset their emissions in a transparent, secure, and sustainable way. It develops and trades carbon credits in line with international standards, creating financial opportunities for nature preservation, accelerating climate action, and promoting a low-carbon future.
