LETTER OF WELCOME

FROM COMMITMENT TO ACTION: NATURE AT THE HEART OF SOLUTIONS

Nature plays a central role in addressing climate change. For Brazil, this agenda also represents an opportunity to bring together climate action, biodiversity conservation, and social and economic development, while recognizing the different realities and potential of each territory.

With one of the greatest levels of biological diversity on the planet, extensive areas of forests and other natural ecosystems, and an agricultural sector of major economic importance, Brazil is uniquely positioned to strengthen its contribution to the global climate agenda. The challenge is to turn this potential into tangible results, with environmental and social integrity, value creation, and lasting benefits.

In this context, Nature-based Solutions (NbS) are gaining increasing relevance. By protecting, conserving, restoring, and sustainably managing ecosystems, these solutions can help address challenges such as climate change while also delivering benefits for biodiversity and human well-being.

But their transformative potential extends beyond environmental outcomes.

When well designed, with appropriate governance, social participation, safeguards, and fair benefit-sharing mechanisms, nature-based initiatives can mobilize investment, create jobs and income, build local capacity, strengthen value chains, and stimulate new economic activities.

It is in the territories where this transformation takes shape.
Investment can build capacity.
New capacities can create opportunities.
Opportunities can strengthen local economies.

And development associated with valuing nature can help make its conservation more lasting.

This transformation logic helps us understand why climate, nature, and development should not be treated as separate agendas. The scale required to address climate change calls for solutions capable of delivering consistent environmental outcomes while also responding to the economic and social needs of the territories where they are implemented.

To achieve this, recognizing nature's potential is not enough. We must create the conditions for that potential to translate into action: financing, public policies, legal certainty, science, technology, integrity, and markets capable of directing resources toward verifiable climate, environmental, and social outcomes.

It is from this perspective that the Brazilian Climate and Carbon Conference 2026 brings together governments, the private sector, investors, project developers, communities, academia, and civil society.

Throughout the Conference, we seek to move from commitments to pathways for implementation; from opportunities to the conditions required for scale; and from Brazil's potential to results that can be felt across the economy, territories, nature conservation, and people's lives.

Because placing nature at the heart of solutions means recognizing its environmental, social, and economic value — and creating the conditions for that value to translate into transformation.

From Commitment to Action: Nature at the Heart of Solutions.

A NBS Brazil Alliance aims to advance the agenda to combat deforestation and promote the restoration of degraded areas and the implementation of regenerative practices by strengthening Nature-based Solutions and the carbon credit market in Brazil.

The Alliance currently brings together 17 members, most of them project developers responsible for more than 70% of the carbon credits issued in Brazil since 2022, focused on NbS and AFOLU (Agriculture, Forestry and Other Land Use).

Founded in 2021, the Alliance emerged from the demand of carbon project developers operating in Brazil for a technical authority that could work to strengthen integrity, promote market best practices, and advance a positive agenda for the sector.

WE ACCOUNT FOR MORE THAN
70% OF NBS / AFOLU CARBON
CREDITS ISSUED IN BRAZIL

+70%

THE ALLIANCE OPERATES ACROSS THREE MAIN STRATEGIC AREAS:

BEST PRACTICES AND INTEGRITY

Focused on ensuring the quality and transparency of Brazilian projects, aligning them with the highest international standards.

ADVOCACY AND PUBLIC POLICY

Technical and strategic collaboration with federal and state governments to develop carbon credit markets and strengthen Nature-based Solutions.

AWARENESS, ENGAGEMENT AND COMMUNICATIONS

Dissemination of relevant information through articles, media interviews, participation in events, and the organization of webinars, courses, and conferences.

DAY 1 - AUGUST 27

THE NEW CARBON ECONOMY: CAPITAL AND TRUST

08:30 - 09:00	REGISTRATION AND WELCOME COFFEE
09:00	OPENING VIDEO Nature at the Heart of Solutions
09:10	OPENING
09:15 - 10:15	PLENARY OPENING From Commitment to Action: Nature at the Heart of Climate Solutions
10:15 - 11:15	PANEL 1 Carbon as a New Global Commodity
11:15 - 12:15	PANEL 2 The Great Convergence: Voluntary, Compliance and Article 6 Markets
12:30 - 14:00	STRATEGIC CONNECTIONS LUNCH
14:00 - 15:00	PANEL 3 Who Will Invest in NbS? The New Demand for Carbon
15:00 - 16:00	PANEL 4 Monitoring Vegetation Cover Dynamics and Estimating Carbon Stocks
16:00 - 16:40	CLIMATE AND CARBON NETWORKING BREAK
16:40 - 17:40	PANEL 5 It's About Much More Than Carbon: Forests, Water, Biodiversity and People
17:40 - 18:40	PANEL 6 MRV 2.0: Satellites, Data and Artificial Intelligence Redefining the Market
18:40	DAY 1 CLOSING

FROM COMMITMENT TO ACTION:
NATURE
 AT THE **CENTER** OF **SOLUTIONS**

DAY 2 - AUGUST 28

FROM REGULATION TO SCALE: BUILDING THE CLIMATE ECONOMY

08:30 - 09:00	WELCOME COFFEE
09:00 - 10:00	PANEL 7 Perspectives and Advances of the Brazilian Emissions Trading System (SBCE) in Brazil
10:00 - 11:00	PANEL 8 The Alliance Between Subnational Governments and the Private Sector in the New Market Demand
11:00 - 12:00	PANEL 9 The Role of Removals in the Carbon Market
12:00 - 12:10	TOUCHPOINT From Measurement to Decarbonization: Building a Climate Journey
12:10 - 13h30	STRATEGIC CONNECTIONS LUNCH
13:30 - 14:30	PANEL 10 Forests as Infrastructure for Local Development
14:30 - 15:30	PANEL 11 Agriculture as a Climate Solution
15:30 - 16:00	CLIMATE AND CARBON NETWORKING BREAK
16:00 - 17:00	PANEL 12 Key Market Players: The Role of Traditional Communities and Indigenous Peoples
17:00 - 18:00	PANEL 13 The Future of Carbon Credit Certification in Brazil
18:00 - 18:20	DAY 2 CLOSING

NBS BRAZIL ALLIANCE
NATURE BASED SOLUTIONS

DAY 1

THE NEW CARBON ECONOMY: CAPITAL AND TRUST

08:30 - 09:00

REGISTRATION AND WELCOME COFFEE

09:00

OPENING VIDEO — NATURE AT THE HEART OF SOLUTIONS

09:10

OPENING

• **Maysa Bonissoni**, Master of Ceremonies

09:15 - 10:15

PLENARY OPENING: FROM COMMITMENT TO ACTION:
NATURE AT THE HEART OF CLIMATE SOLUTIONS

From intention to action, exploring the role of nature as a central pillar for effective climate solutions capable of delivering impact, scale, and transformation.

MODERATOR

• **Julie Messias**, Executive Director of the NBS Brazil Alliance

SPEAKERS

• **Beatriz Soares**, Director of Market Instruments and REDD+ at the Ministry of Environment
• **Marcelo Furtado**, Head of Sustainability at Itaúsa

10:15 - 11:15

PANEL 1
CARBON AS A NEW GLOBAL COMMODITY

An analysis of the transformation of carbon into an asset class, with the entry of financial players and the development of structured instruments, highlighting the importance of robust systems for registration, custody, and integration with the SBCE infrastructure.

MODERATOR

• **Carlos Martins**, Chairman of the Board, ACX Brasil

SPEAKERS

• **Fernanda Almeida da Silva**, Head of Sustainability at Elo
• **Henrique Vasconcellos**, Executive Manager of Sustainable Business and Finance at Banco do Brasil
• **Werner Kornel**, Environment Coordinator at the World Bank

11:15 - 12:15

PANEL 2
THE GREAT CONVERGENCE: VOLUNTARY, COMPLIANCE AND ARTICLE 6 MARKETS

An analysis of the opportunities arising from the integration of voluntary markets, regulated systems, and Article 6 mechanisms.

MODERATOR

• **Janaina Dallan**, Board Member of the NBS Brazil Alliance

SPEAKERS

• **Winston Fritsch**, Emeritus Counselor at CEBRI (Brazilian Center for International Relations)
• **Beatriz Soares**, Director of Market Instruments and REDD+ at the Ministry of Environment
• **Marco Tulio**, Coordinator of the Drafting Team for the COP30 Presidency Roadmap to Halt and Reverse Deforestation and Forest Degradation

12:30 - 14:00

STRATEGIC CONNECTIONS LUNCH

DAY 1

THE NEW CARBON ECONOMY: CAPITAL AND TRUST

14:00 – 15:00

PANEL 3

WHO WILL INVEST IN NBS? THE NEW DEMAND FOR CARBON

An exploration of new dynamics in demand for carbon credits, driven by corporate commitments and global regulatory pressures.

MODERATOR

• **Monique Vanni**, Country Director, Brazil, Wildlife Works

SPEAKERS

- **Ana Moeri**, President of Instituto Ekos
- **Maria Izabel Ramos**, Nature-based Solutions Manager at Petrobras
- **David Nieto**, Technical Climate Consultant at Sylvera
- **Ana Plata**, CEO of Biofix

15:00 – 16:00

PANEL 4 - MONITORING VEGETATION COVER DYNAMICS AND ESTIMATING CARBON STOCKS

The growing demand for transparency, reliability, and measurable results has increased the importance of continuously monitoring vegetation cover dynamics and estimating carbon stocks to enhance the quality of carbon projects and strengthen Nature-based Solutions initiatives.

Beyond estimating carbon stocks, the challenge is to generate evidence that enables the evolution of projects and their areas of influence to be monitored, their environmental impacts assessed, and confidence in these initiatives and their results strengthened. This panel will bring together experts to discuss the key challenges and opportunities related to vegetation cover monitoring, carbon stock estimation, and impact assessment, exploring how this information can help improve project quality, support strategic decision-making, and increase the effectiveness of Nature-based Solutions in addressing climate change.

MODERATOR

• **Carlos Mantovani**, CTO and COO at SCCON Geospatial

SPEAKERS

- **Cristiano Cunha**, Coordinator of the Management Committee of the Brasil MAIS Program at the Federal Police
- **Eduardo Chagas**, Technical Director of the Espírito Santo Institute for Agricultural and Forest Defense (IDAF)
- **José Humberto Chaves**, General Coordinator of Forest Monitoring and Auditing at the Brazilian Forest Service
- **Flávia de Souza Mendes**, PhD and Senior Manager of Forests and Land Use at Planet

12:30 – 14:00

STRATEGIC CONNECTIONS LUNCH

14:00 – 15:00

PANEL 5 - IT'S ABOUT MUCH MORE THAN CARBON: FORESTS, WATER, BIODIVERSITY AND PEOPLE

Highlighting why REDD+ and forest conservation projects matter beyond avoided carbon emissions: they conserve biodiversity, regulate the climate, provide water, and support the people who live in and depend on forests.

MODERATOR

• **Julie Messias**, Executive Director of the NBS Brazil Alliance

SPEAKERS

- **Marcos Preto**, CEO of Agrocortex
- **Rair Verde**, Co-Founder and Partner at Catraia Soluções Ambientais
- **André Lima**, Extraordinary Secretary for Deforestation Control and Environmental Land-Use Planning at the Ministry of Environment
- **Elayne Camilo**, General Director of Associação Mulheres da Terra

DAY 01

THE NEW CARBON ECONOMY: CAPITAL AND TRUST

17:40 - 18:40

PANEL 6 - MRV 2.0: SATELLITES, DATA AND ARTIFICIAL INTELLIGENCE REDEFINING THE MARKET

Exploring technological innovations that are transforming measurement, reporting, and verification, reducing risks and increasing transparency.

MODERATOR

• **Luciano Correa**, CEO of Carbonext

SPEAKERS

- **Scott Dickson**, Head of Data Science at ChrysaLabs
- **Florian Reber**, Senior Vice President, Business Development & Partnerships at Chloris Geospatial
- **Roberta Cantinho**, Special Advisor to the Office of the Minister of Environment (MMA)

18:40

DAY 1 CLOSING

DAY 2

FROM REGULATION TO SCALE: BUILDING THE CLIMATE ECONOMY

08:30 - 09:00

WELCOME COFFEE

09:00 - 10:00

PANEL 7

PERSPECTIVES AND ADVANCES OF THE SBCE IN BRAZIL

An analysis of the institutional and regulatory advances in the implementation of the Brazilian Emissions Trading System (SBCE), focusing on governance, market design, integration with international initiatives, and its potential as an instrument for competitiveness and investment attraction.

MODERATOR

• **Julie Messias**, Executive Director of the NBS Brazil Alliance

SPEAKERS

• **Fabio Brasiliano**, Director of Environment at FIESP and CIESP
• **Nathalie Vidual**, General Coordinator of Registration and Market Infrastructure at the Extraordinary Secretariat for the Carbon Market

• **Carlos Aragon**, Executive Secretary of the GCF Task Force
• **Maria Belén Losada**, Superintendent of Global Markets and Carbon Products and representative of ANBIMA (Brazilian Association of Financial and Capital Market Entities)

10:00 - 11:00

PANEL 8 - THE ALLIANCE BETWEEN SUBNATIONAL GOVERNMENTS AND THE PRIVATE SECTOR IN THE NEW MARKET DEMAND

A discussion on the growing role of subnational governments in implementing climate policies and carbon markets in alignment with the private sector.

MODERATOR

• **Eduardo Taveira**, Senior Consultant at ABEMA (Brazilian Association of State Environmental Entities)

SPEAKERS

• **Renata Nobre**, Deputy Secretary for Water and Climate Management at SEMAS/PA
• **Marli Santos**, Superintendent of Environmental Public Policy Management at SEMARH/TO
• **Tiago Ricci**, Director at Systemica

11:00 - 12:00

PANEL 9

THE ROLE OF REMOVALS IN THE CARBON MARKET

A discussion on the growing demand for carbon removal credits and their technical, economic, and regulatory challenges.

MODERATOR

• **Marcelo Ferronato**, Executive Secretary of the Alliance for the Restoration of the Amazon

SPEAKERS

• **Juliana Rolla**, CEO of Oma Ativos Ambientais
• **Soraya Pires**, Global Head of Climate Solutions at Bioflica
• **Elen Blanco**, Senior Climate Finance Coordinator at Conservation International
• **Beatriz Pita**, Executive Director of Carbô

12:00 - 12:10

TOUCHPOINT

FROM MEASUREMENT TO DECARBONIZATION: BUILDING A CLIMATE JOURNEY

SPEAKERS

• **Bárbara Rua**, Operations Coordinator and Head of NbS at Neocert Certificações

12:10 - 13:30

STRATEGIC CONNECTIONS LUNCH

DAY 02

FROM REGULATION TO SCALE: BUILDING THE CLIMATE ECONOMY

13:30 – 14:30

PANEL 10

FORESTS AS INFRASTRUCTURE FOR LOCAL DEVELOPMENT

Exploring new forest-based economic models, including concessions, sustainable forest management, restoration, and multiple revenue streams.

MODERATOR

• **Natália Chiaroni**, ESG Products Manager at B3

SPEAKERS

- **Marcus Santiago**, Head of the Environment Department at BNDES
- **Renato Rosenberg**, Director of Forest Concessions at the Brazilian Forest Service
- **Marcos Preto**, CEO of Agrocoortex

14:30 – 15:30

PANEL 11

AGRICULTURE AS A CLIMATE SOLUTION

An analysis of the strategic role of the agricultural sector in mitigation and in generating high-integrity carbon credits.

MODERATOR

• **Guilherme Ferraud**, Executive Manager at MyCarbon

SPEAKERS

- **Prof. Dr. Carlos Cerri**, Director of CCARBON/USP
- **Richard Smith**, Executive Director of Instituto PCI
- **Ericka Perez Schelb**, Socio-Environmental Supervisor at Amaggi

15:30 – 16:00

CLIMATE AND CARBON NETWORKING BREAK

16:00 – 17:00

PANEL 12 - KEY MARKET PLAYERS:

THE ROLE OF TRADITIONAL COMMUNITIES AND INDIGENOUS PEOPLES

A reflection on governance, benefit-sharing, and social inclusion in the carbon economy.

MODERATOR

• **Marcia Stanton**, Technical Advisor at the Floresta+ Amazônia Project of the United Nations Development Programme (UNDP)

SPEAKERS

- **Daiane Tenharin**, Coordinator of the Association of the Tenharim Morõgitá Indigenous People, from the Tenharim Marmelos Indigenous Territory in Amazonas
- **Julio Barbosa**, President of the National Council of Extractive Populations
- **Carolina Delgado**, Coordinator of Climate Change and Environmental Services at FUNAI
- **Mariane Nardi**, General Coordinator of REDD+ at the Ministry of Environment

17:00 – 18:00

PAINEL 13

THE FUTURE OF CARBON CREDIT CERTIFICATION IN BRAZIL

An analysis of certification standards, with an emphasis on the convergence between integrity and viability, including challenges related to recognition across systems, methodological bottlenecks, transaction costs, and implications for liquidity and scalability.

MODERATOR

• **Bruno Brazil**, CEO of BRCarbon

SPEAKERS

- **Thibault Sorret**, Founder and CEO of Equitable Earth
- **Remo Filleti**, Senior Carbon Technical Analyst at the Integrity Council for the Voluntary Carbon Market (ICVCM)
- **Cassio Souza**, Director, Market & Client Relations at Verra
- **Iara Musse**, Co-Founder and Chair of the Board at SCCON

PETROBRAS

petrobras.com.br

We are a publicly traded company that operates in an integrated and specialized manner across the oil, natural gas, and energy industries. We have expertise in exploration and production, particularly in deep and ultra-deep waters. Our operations extend beyond the development of fields and the extraction of oil and gas. This involves a long process through which we transport oil and gas to our refineries and natural gas processing facilities, which must be equipped and continuously evolving, operating at low costs and with low carbon emissions, contributing to sustainable development in a society undergoing transition.
